

This is a default pdf with some instructions of how to use the viewer developed by Clip It & Ship It.

1. Upload your desired pdf using  icon located in the top bar and choosing from your computer the pdf you want (this pdf will be removed from your view)
2. Special tools are situated on the left sidebar which can be deployed by clicking  on the top left corner of your browser.

3.1. A side bar will be displayed with different options:

- A preview of all pages of the document is shown

- Different sections are shown divided by titles and subtitles

- Fast summary of the document: This summary is taken from semantic scholar, if the document isn't in this database, the summary won't be displayed

- Knowledge graph: graph showing all the references of the actual paper to the papers cited

- Cross-references: list of tables, figures, equations, and a preview of each one when clicked.

3.2. Other functionalities:

- When you hover-over a reference, a view of that table, equation, figure... is shown as a new window preview

- Pressing this button, an input for text will be displayed. You can search for papers on [semanticscholar.org](https://www.semanticscholar.org) by title or unique ID. If the pdf of the paper is free, it will be displayed as if you have it on your personal laptop.
